What Holds Me Back

from Being at My Best

1. Having to focus on the details
2. Attempting to please others instead of going after the best possible outcome
3. Not creating enough whitespace in my day
4. Trying to organize or reorganize and create processes when not necessary

I Work Best When

1. I talk ideas out with people (pick up the phone & call me!)
2. I focus on the context of the situation first, then the details
3. Others help me see different possibilities
