What Holds Me Back

from Being at My Best

1. Having to focus on the details
2. Attempting to please others instead of going after the best possible outcome
3. Getting too emotionally attached to the outcome
4. Trying to organize or reorganize and create processes when not necessary

I Work Best When

1. I talk ideas with people (pick up the phone and call me!)
2. I focus on the context of the situation first, then the details
3. Others help me see different possibilities
